

Therapeutic classroom support for children ages 2-10

As a part of your team, I will:

- Collaborate with school staff to monitor and support student progress
- Communicate with parents regularly regarding children's developmental growth and individual goals
- Consult with therapists and other providers to maintain a consistent team approach

Classroom services include:

- Implementing strategies to maintain an ideal state of regulation necessary for learning
- Facilitating positive interactions with peers
- Interpreting what a child's "behavior" is trying to communicate
- Promoting play skills during unstructured classroom time
- Creating and utilizing visual aids and social stories to foster success
- Offering alternative solutions when group learning is not accessible or in times of dysregulation
- Providing individualized instruction to maximize learning opportunities
